

Journée mondiale du recyclage

Notre outil "Que faire de mes objets & déchets" aide les citoyens à mieux faire le tri

Il aide à trouver où **recycler** les objets dont on ne veut plus...

The screenshot shows a web interface for finding recycling points. At the top, there's a navigation bar with a search icon and the text "mes déchets ?". Below that, the main heading is "Chaussures". There are two tabs: "Mauvais état" (selected) and "Bon état". The text below explains that shoes can be repaired or recycled. It mentions a "Bonus Réparation" link and suggests finding a repairer on the map. It also states that unusable shoes can be deposited in dedicated containers in the street or in dedicated spaces in the recycling center, in pairs and in a bag. The section "Où l'apporter ?" has a search bar with "Angers" entered. Below the search bar is a map of Angers with several purple pins indicating collection points. A legend titled "Actions possibles" shows two options: "Je répare" (with a green checkmark and a wrench icon) and "Je dépose en point de collecte" (with a purple checkmark and a recycling icon). A "Filtres avancés" button is at the bottom left of the map area.

Mais suggère aussi de les **réparer**, de les **donner** ou de les **revendre** !

Parce que recycler c'est bien, mais
**réparer, réemployer, réutiliser, c'est
encore mieux !**
